

ProChem® Process Tanks With intuitive standard features

PROCHEM® TANKS - PROCHEM® TANKS - PROCHEM® TANKS - PROCHEM® TANKS - PROCHEM® TANKS - PROCHEM® TANKS - PROCHEM®

ProChem® Tanks, available in linear and crosslink polyethylene, are designed for agricultural and industrial chemical applications where a single-walled design is desired. Most Tanks include an integrally molded pump mounting platform on top and standard process fittings for fill and discharge of chemicals, water or food products. Supplied with a vented access opening and easy to read calibration in liters and gallons, the ProChem® Tank offers standard features not previously available anywhere. Each ProChem® Tank offers the following standard features:

- Heavy Duty Construction – Available in 1.5 or 1.9 Specific Gravity for a wide range of products.
- Choice of Materials – Available in Linear Polyethylene (LPE), XLPE, PPL or PVDF.
- Molded-In Calibration – in Gallons and Liters for visual level reference. Blackened-in Calibration Numbering is optional and at additional cost.
- Large Pump Mounting Platform on Top – Rated for 225 lbs / 102.6 kg for direct-mounting of chemical feed pump complete with pump suction connection (up to 300 gallons).
- Standard Top Process Fittings – Designed for top fill and discharge connections and level sensor on 300 Gals and below.
- Sizes from 25 to 1500 Gallon / 95 to 5678 Liter Capacities.
- LPE Tanks are ALS Group USA, Corp. NSF/ANSI/CAN 61 Certified for Potable Water applications.
- XLPE Tanks 40 gallons and up are Certified NSF/ANSI/CAN 61.
- PPL and PVDF Tanks of all sizes are Not Certified NSF/ANSI/CAN 61.
- Standard Options including Seismic/Wind Restraint Systems, Agitation, Process Connections, etc.
